

Genetic diversity of human adenovirus in hospitalized children with severe acute lower respiratory infections in Paraguay

Emilio E. Espínola, Graciela Russomando, Wilma Basualdo, Daniel A. Benítez, Graciela Meza, Laura Maldonado, Gláucia Paranhos-Baccalà

Abstract

Adenoviruses (AdVs), members of the family Adenoviridae, belong to a complex group of viral pathogens that infect many species of vertebrates and cause a broad range of clinical manifestations in humans, compromising the respiratory, gastrointest...
